

## What is the trigger to start the compressions?

When a customer visits a productpage and the extension is enabled the compressed version of the product images will be shown. If the compressed version does not yet exist it will be fetched from API.

There is no cron job used for the compression of the images.

Heeft u feedback? Wij horen het graag op 020-2181001 of per e-mail op [support@tig.nl](mailto:support@tig.nl).
