

Verzendkosten instellen in Magento 2

In Magento 2 kunt u de verzendkosten instellen door te navigeren naar:
Stores > Configuration > Sales > Shipping Methods.

De verzend functionaliteiten komen geheel overeen met Magento 1. U kunt een TableRates bestand vanuit Magento 1 dus exporteren en weer inladen in Magento 2.?

The screenshot displays the Magento 2 admin interface for configuring shipping methods. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, and System. The main content area shows the configuration for the 'Main Website' store view. A 'Save Config' button is located in the top right corner. The configuration is organized into sections: GENERAL, CATALOG, CUSTOMERS, and SALES. Under the SALES section, the 'Shipping Settings' menu item is selected, leading to the 'Shipping Methods' configuration page. This page lists several shipping methods, each with a dropdown arrow on the right: Free Shipping, Flat Rate, Table Rates, UPS, USPS, FedEx, and DHL.
